

## PVC Purge Vs Competition Cleaning Degraded PVC on 100 Tonnes Injection Moulding Machine

### The Process

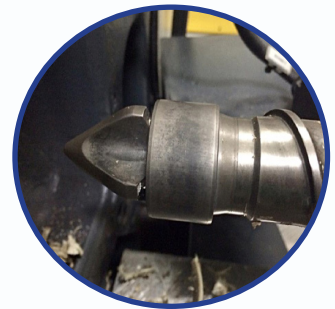

Degradation left in end cap using competitor's product

End cap after using PVC Purge

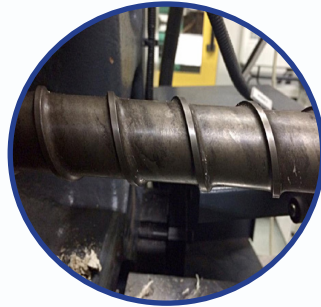

Degradation left on end of screw tip using competitor's product

Screw tip after using PVC Purge

Degradation left on metering section using competitor's purge

Front section after using PVC Purge

Degradation left in middle section using competitor's purge

Middle section after using PVC Purge

## Results

### Normal results:

- Purge 3 kg of competitor's liquid + PVC
- Strip/clean M/c weekly
- 3 hours time lost

### Aquapurge results:

- 1.5 kg PVC Purge
- 10 mins purging
- No need to strip/clean
