Aquapurge Ltd - Technical Documentation Disclaimer

Disclaimer and User Responsibility

Before using any product supplied by **Aquapurge Ltd**, it is essential that users make their own independent assessment to confirm that the product is appropriate for the intended application. Aquapurge Ltd does not assume responsibility for determining suitability; this obligation rests solely with the end user.

All relevant **safety precautions** must be strictly observed during handling, processing, and application of the product. Compliance with applicable safety standards and regulations is the responsibility of the user.

Processing and Application Guidance

Due to the wide range of variables that can influence processing conditions and performance outcomes—including, but not limited to, equipment settings, environmental factors, and material compatibility—the information provided by Aquapurge Ltd should be regarded as **general guidance only**. It does not relieve processors or users from the responsibility of conducting their own tests, trials, and evaluations to verify suitability for their specific requirements.

No Legally Binding Assurances

Aquapurge Ltd makes no legally binding assurances regarding:

- Specific product properties
- Performance under particular conditions
- Fitness for any specific purpose

All technical data and recommendations are offered in good faith and reflect our **current knowledge and experience** at the time of publication. However, they are subject to change without notice as part of ongoing product development and improvement.
